

## DESIGNER CEILINGS

**May 2008** TBS Movie and a Makeover's expert designer Brian Patrick Flynn specified Interior Systems' Look of Metal mineral fiber ceiling panels for a recent episode of Movie and a Makeover at Atlanta's Samaritan House Café 458. Café 458 is a non-profit, life-stabilization program and restaurant for homeless men and women to help them on their way to self-sufficiency. Interior Systems gladly donated Look of Metal ceiling panels in Metallic Copper as well as paint for the existing grid and 2' cross-tees. With Interior Systems' impressive ceiling upgrade, Café 458's was transformed into facility that can now serve the community in style.

*Above: Café 458's 2' x 4' white acoustical ceiling before the makeover.  
Right: After installing 2' cross-tees and painting the grid system, Look of Metal K6 in Metallic Copper panels were installed to add classic appeal to the ceiling.*
